授業の内容	<p>This course provides students with the opportunities for critically reviewing and analyzing the on-going global challenges, beyond borders and across disciplines around the world. Through providing conceptual clarity and concrete case studies, students will be directed to understanding and drawing an overall picture of global issues. Students will also learn about some practical technics and tools for problem analysis, in order to analyze the global issues and seek the real global agenda.</p> <p>Globalization is a relatively new aspect, in association with economic activities, political interventions, social network and many more aspects beyond borders. Therefore, it is also critical to learn and explore about the new actors in the scene such as NGOs and Civil Society. The course will then finally explore the possible ways and alternatives of solution for global issues, examining the major key actors.</p>
